

## How I Plan to Deal with My Anxiety, Stress or Worry!

### Write Out A Schedule

Routines help us feel “normal” – it eases our fears about what’s going to happen next. If we have a schedule, we know what’s going to happen next! It is comforting.

Consider establishing times for:

- Eating
- Sleeping
- Physical Activity
- Connecting with Others
- Learning Something New
- Doing Something Fun
- Helping Someone Else
- Talking to a Family Member, Friend or Therapist About Your Anxious Feelings

### Sample Schedule\*

\*Be kind to yourself – it’s ok not to always follow the schedule!
